

Phase One Bridging Work 2021 - Design and Technology

All tasks should be completed and handed in to your teacher during your taster lesson on the A-level induction day on Monday 12 July.

Introduction to the Course	GCSE Flashback (2 hours)	A Level Preparation Tasks (2 hours)
<p>The bridging work we are setting for you will give an insight to the expectations of the course. We will be looking to build and develop the skills you gained during your GCSE course.</p> <p>Follow the instructions in the right hand column, and complete the mini project to the best of your ability. This will be assessed when you arrive with us in September.</p> <p>The link to the course specification is below:</p> <p><u>A level Product Design</u></p> <p>For your first task I would like you to look at the link below and take notes on the differences between a design brief</p>	<p>Public Seating Design and Model Mini Project</p> <p><u>Brief</u></p> <p>Town centres are often associated with shopping and retail. They can also be the centre for major</p> <p>transport hubs, tourist hotspots and public buildings, such as town halls, museums and theatres.</p> <p>Seating is a need for all users of a town centre.</p> <p>Design and model a seating solution that could be used within the urban environment.</p> <p>The seating should be accessible for all users and should have environmentally friendly credentials.</p>	<p>Following on from the Design brief in the middle column and using the research you have created, you need to complete the following tasks.</p> <p>3. Identification of your target market.</p> <p>4. A technical specification.</p> <p>5. A range of different initial ideas and concept sketches using a range of different drawing techniques.</p>

<p>and a design specification. Also watch the video within the link.</p> <p>https://www.bbc.co.uk/bitesize/guides/zbn6pbk/revision/3</p> <p>Using the example below, make a plan for your own Design brief analysis which you will complete in the next column.</p> <p>https://drive.google.com/file/d/1NShoxFESk6VJWNBW0l6aEO-BGhyGaFUL/view?usp=sharing</p>	<p><u>Expectations</u></p> <p>You should generate a mini design portfolio that contains the following:</p> <ol style="list-style-type: none"> 1. Analysis of the design brief (what is it that you need to do and what do you need to consider) 2. Research into existing solutions. 	
---	---	--

Approx. 6 hours of work in total. For further guidance, please contact <overwrite here with contact details of A-level teacher & email address>
