

Phase One Bridging Work 2022 - Psychology

All tasks should be completed and handed in to your teacher during your first lesson at the start of the academic year. **The highlighted task** should take approximately **one hour** to complete and this should be submitted to your teacher on the A-level induction day in term 6..

Introduction to the Course (2 hours)	GCSE Flashback (2 hours)	A Level Preparation Tasks (2 hours)
<p>The Psychology course you will follow at Chipping Norton School is a two year course with no requirement for course work. At the end of the two year period you will sit three 2 hour exams.</p> <p>1) Click here to see the specification for the course</p> <p>Year 1: Social Influence, Memory, Attachment, Approaches to Psychology, Psychopathology and Research Methods. Year 2: Research Methods, Biopsychology, Issues and Debates, Gender, Aggression and Schizophrenia.</p> <p>2) Answer these questions</p> <p>a) Why have you chosen to study psychology?</p> <p>b) Which part of the course are you most looking forward to?</p> <p>c) Which part of the course are you most worried about (if any) ?</p> <p>3) Click here for a short introductory video and questions to answer.</p>	<p>When you study Psychology it will be a brand new subject, but there are a few things from Biology and Mathematics that will really help you.</p> <p>From mathematics you should make sure that you are comfortable with and understand the following concepts:</p> <p>Recognise and use expressions in decimal standard form, be able to estimate results, use an appropriate number of significant figures, calculate and arithmetic mean, be able to interpret frequency tables, bar charts, histograms, understand the terms mean, mode and median and standard deviation.</p> <p>TASK 1- complete as much of this maths for psychology workbook (don't spend more than 2 hours on it!)</p> <p>From your biology it is important that you understand how cells operate and how messages are transmitted around the body, if you know something about the central nervous system that would also be a good thing. But don't worry if these ideas are a little rusty because we will teach you them all over again!</p>	<p>1) The first thing that you will need to do is log onto the Year 1 textbook. https://illuminate.digital/aqapsych1/</p> <p>To log on you will need the following information. The login is all uppercase SCHIPPINGNORTON and your password is student.</p> <p>Once you have logged in you can browse through to see what awaits you next year.</p> <p>2) Using the digital textbook read pages 10 - 11 and make between 6 - 10 flash cards on the Approaches to Psychology.</p> <p>3) Make a brain! Click here for the template and instructions for making a model Brain. Remember to bring your brain to our Induction lesson.</p> <p>4) Videos and Questions Click here for three short videos with questions introducing you to some important ideas in psychology</p> <p>5) Essay task: Write no more than a side of A4 answering this question '<u>Should psychologists be able to cause harm to people or animals in order to make significant discoveries about our behaviour?</u>'</p>

Approx. 6 hours of work in total. For further guidance, please contact bgray@chippingnortonschool.org
